FLOAT SWITCH

Part No. 790267, Option No. 777836: Plastic Float, 0.5 specific gravity

Part No. 790259, Option No. 777838: Stainless Steel Float, 0.65 specific gravity

An electrical float switch to activate alarms and/or shut-down equipment when a liquid rises high enough to set the snap-switch.

The switch must be mounted in a horizontal position through a 1½" NPT **half coupling only**.

Body/Cover: Electroless Nickel Plated Steel

O-rings: Viton

Housing: Explosion Proof CSA Listed
Class I Groups C & D Div. 1

Switch: SPDT 5A @ 125 - 480 VAC
½A 125 VDC, ¼A 250 VDC
2A Resistive 30 VDC,
1A Inductive 30 VDC

Pressure, Max.: 1,500 psi, 103 bar

Temperature, Max.: 300°F, 149°C

Approx. Weight: 6 lb., 2.7 kg
